

SELECTING A CONTRACT TO INSTALL YOUR HEAT PUMP THROUGH THE *energy right*® PROGRAM

- The contractors on this list are members of the Quality Contractor Network and have agreed to install heat pumps to meet the *energy right* standards.
- The contractor's work is not warranted or guaranteed by TVA or Alcoa Electric Department.
- With the energy right financing, a TVA inspection is required after all work has been completed by the contractor.
- For customers who do not use our financing, you can still request a TVA inspection at no cost after the heat pump is installed.
- Shop for a heat pump as you would for any other appliance – typically it is a good idea to get more than one bid. Ask for quotes to be in writing.
- Compare heat pump features, efficiency levels and warranties.
- Ask the contractor for references.
